

Promark - Custom Metal Stamping & Assembly Manufacturer

107 Howden Road
M1R3C7

Phone: 416 755 2234

Turn your custom designs into metal parts with Promark. Our broad knowledge and expertise has helped us solve many intriguing production problems in the past. We specialize in thin-metal stamping, producing complex shielding gaskets from .004" thick beryllium copper, stainless steel and aluminium. We customised metal parts that are consistent to your dimensions, meet your cosmetic and quality criteria, contribute to the effectiveness of your bottom line and are manufactured to meet your quality and functionality standards. We take pride in being readily adaptable to your needs.
